

Lush

Site has following custom features.

- Logo for documents are picked up from caloc (Cross Application→Common Codes→Locations), if available. Otherwise picks up from business table, as in standard. To be considered for inclusion in standard.
- Fixed texts on document headers describing store operating hours, hotline, etc. are picked up from camsg (Cross Application→Common Codes→Message Maintenance), where code is equal to "StoreInfo_" + <location code>. If not found, picks up from camsg where code is equal to "StoreInfo", which should contain the default value.
- Fixed remarks on document footers describing terms and conditions are picked up from camsg (Cross Application→Common Codes→Message Maintenance), where code is equal to "Remarks_" + <document type>. Document types could be

```
C0 - Customer Order
D0 - Delivery Order
INV - Invoice
P0 - Purchase Order
GRN - GRNs
```

- If not found, picks up from camsg where code is equal to "Remarks", which should contain the default value.
