Custom Fields

To allow for non-interference with standard systems, developers should use the required number of custom fields (already defined in the standard field table **da.fields**) from the follwing standard custom fields.

xstr01 to **xstr05** – varchar
xint01 to **xint05** – integer
xvalue01 to **xvalue05** – decimal

Please keep this page updated, whenever you use any such field in any project.

Crown Jewels, Singapore
