Visibility in Lists

Visibility of data in lists can be controlled by context and teams. Currently, the following contexts are supported.

Context	Field	Control Group	Table
Account	Account Code (xacc)	Account Group (xaccgroup)	Chart of Account (glmst)
Customer	Customer Code (xcus)	Customer Group (xgcus)	Customer Master (cacus)
Supplier	Supplier Code (xsup)	Supplier Group (xgsup)	Supplier Master (casup)
Employee	Employee Code (xempnum)	Employee Group (xgemp)	HR Master (hrmst)
Warehouse	Warehouse Code (xwh)	Warehouse Code (xwh)	Stock Master (imstk)
